-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Status of Claims

1. This action is responsive to amendment filed on October 19, 2008, where Applicant cancelled claims 1-45 and added new claims 66-69. Claims 66-69 remain pending.

Claim Construction

2. Claim 66, line 6, recites "enabled to" and on line 9, recites "capable of". These limitations are clauses that merely state the purpose or intended use of the provider and apparatus respectively. They fail to impart any distinct components, definitions or functionalities of the claimed MVNO apparatus. Since the claim is an apparatus claim, the language that follows these clauses are not considered as limitations and thus are of no significance to claim construction.

(See MPEP section 2103 II.C)

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

4. **Claims 66-69 rejected under 35 U.S.C. 102(e) as being anticipated by Karremans**
(US Publication No 2006/0041666).

5. In reference to claims 66-69, Karremans teaches a hosted mobile virtual network operator (MVNO) apparatus comprising:

an interface to a plurality of network operators; an interface to a service provider; an interface to an external network; and an application service provider unit enabled to manage a partnership module to said at least network operator, a module for settling operator fees, and at least a module to enable the hosting of at least an application of said service provider; such that the apparatus is capable of providing a customer of said service provider with service from at least one of said plurality of network operators while communicating solely with the hosted MVNO apparatus; wherein the external network is the world wide web (WWW); wherein the service provider and the network operator are the same entity or same organization; wherein said application is provided by said customer. (Figure 5 and ¶s 93-96).

Conclusion

6. The above rejections are based upon the broadest reasonable interpretation of the claims. Applicant is advised that the specified citations of the relied upon prior art, in the above rejections, are only representative of the teachings of the prior art, and that any other supportive sections within the entirety of the reference (including any figures, incorporation by references, claims and/or priority documents) is implied as being applied to teach the scope of the claims.

7. Applicant may not introduce any new matter to the claims or to the specification. For any subsequent response that contains new/amended claims, Applicant is required to cite its corresponding support in the specification. (See MPEP chapter 2163.03 section (I.) and chapter 2163.04 section (I.) and chapter 2163.06)

8. In formulating a response/amendment, Applicant is encouraged to take into consideration the prior art made of record but not relied upon, as it is considered pertinent to applicant's disclosure. See attached Form 892.

9. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
